IDENTIFIERS	*Library Statistics

ABSTRACT

The report is based upon two questionnaires administered by the Office of Education. The first questionnaire, sent to each State library agency, asked for a list of libraries in the State which served areas with at least 25,000 inhabitants. Forty-nine responding States and three outlying areas reported a total of 1,135 qualifying libraries. The second questionnaire, produced a total of 1,057 responses. Table 1 presents summary data for the 1,057 reporting libraries, by population size group; tables 2 and 3 present selected summary data for these libraries, by State; and tables 4 through 9 provide detailed information for each responding library, arranged alphabetically by State and city. All annual data included in this report cover the libraries' fiscal year that ended during the period January 1, 1968, through December 31, 1968. The variation in type of fiscal year used by public libraries is shown in appendix B. The questionnaires, definitions, and instructions are reproduced as appendixes C and D. (Author/NH)

FOREWORD

This survey continues the series of selected statistical data for public libraries begun in the U.S. Office of Education in 1944. Its immediate predecessors were the 1962 and 1965 surveys of large public libraries.

In one important way, continuity with the past has been broken. Although both public libraries and public library systems composed of independent, locally autonomous libraries had reported as single units in earlier public library surveys, the 1968 survey makes a sharp distinction between the two types of organization and is intended to include only public libraries serving areas with at least 25,000 inhabitants. The change in scope introduced into the current survey has prompted us to regard it as a pilot study for a new series. Consequently, comparisons with past surveys in this series should be made with caution.

The National Center for Educational Statistics takes this opportunity to express its grateful appreciation to the State library agencies for their cooperation in this survey. Most States provided listings of qualifying libraries. Thirty-three States distributed questionnaires, collected and edited the reports, and returned them to the Office of Education. A majority of the other States assisted by interpreting the questionnaire to their libraries and encouraging them to file a report.

Joel Williams, Chief
Library Surveys Branch

Introduction 1

TABLES

1. Summary data for public libraries serving areas with at least 25,000 inhabitants, by population size group: Aggregate United States, fiscal year 1968 8

2. Library resources, transactions, and staff positions, by State or outlying area 9

3. Operating receipts and operating expenditures, by State or outlying area 10

4. Population of area served, libraries serving an SMSA, and number of service outlets by type, by State or outlying area and city 11

5. Resources and transactions, by State or outlying area and city 29

6. Salaries of beginning librarians, and staff positions by type, by State or outlying area and city 47

7. Operating receipts, by source, State or outlying area, and city 65

8. Operating expenditures, by purpose, State or outlying area, and city. 83

9. Capital expenditures, by source, State or outlying area, and city 101

APPENDIXES

A. Public libraries serving areas with at least 25,000 inhabitants, population of area served, and membership in system (complex), by State or outlying area and city: Fiscal year 1968 120

B. Number of public libraries serving areas with at least 25,000 inhabitants, by State or outlying area and fiscal year: Fiscal year 1968 139

C. Questionnaire: State library agency form 140

D. Questionnaire: Library form 141

INTRODUCTION

In recent years there has been a growing tendency for independent libraries to enter into cooperative relationships with other public libraries, or even with libraries of other types. This fact has complicated the collection of data that are comparable among libraries.

Some public libraries now belong to more than one library system. 1/ Therefore, it has become necessary to regard the independent, locally autonomous library as the basic reporting unit. Reports obtained from independent libraries may easily be sorted to produce system (complex) aggregates. Statistics for independent libraries also provide a means for evaluating the trend of the impact of system (complex) membership on the library.

Because systems (complexes) were reported in former Office of Education surveys, a few of the reporting units in this survey are probably systems (complexes) rather than libraries. It is hoped that these reports can be eliminated from future surveys when the techniques for separating local libraries from systems (complexes) are more fully developed.

The report is based upon two questionnaires administered by the Office of Education. The questionnaires, definitions, and instructions are reproduced as appendixes C and D.

At the initial stage of the survey, each State library agency was asked to list on a form the libraries in the State serving areas with at least 25,000 inhabitants. The State library agencies were also asked to give the 1960 Census population of the area served by each library and the names of the public library systems (complexes) with which the libraries were affiliated.

1/ The definitions accompanying the survey forms limited the use of the word "system" to the type of complex library organization that is composed of two or more independent, locally autonomous libraries. This created much confusion, since the word "system" has also been used by librarians to designate several types of consolidated library organization, such as the city library with its branches or the regional library composed of previously independent libraries that have merged under a single administration. For clarification, a system of the complex type is hereafter referred to as a system (complex). Consolidated multiunit libraries are included in the term "library."

Forty-nine responding States and three outlying areas reported a total of 1, 135 libraries serving areas with at least 25, 000 inhabitants. One State did not provide a listing of its libraries.[2/]

A second questionnaire was sent to the 1, 135 identified libraries. A total of 1, 057, or 93 percent of the libraries responded.

During the analysis of the survey returns, it was discovered that at least 25 libraries that provide library development (extension) services to other independent libraries had included data for system (complex) functions in the local library report. When queried, one of the libraries resubmitted a report containing only local library data. The other libraries reported that, at the present time, they do not keep separate records for the two functions. Footnotes in table 7 identify the 24 libraries which reported that they had included receipts for library development functions beyond the local library service area. Other libraries may have included data for library development functions without providing this information in their reports. In the future, the manner in which multiple-functioning libraries should report must be determined to produce uniform and meaningful statistics.

Arrangement of Tables

Table 1 presents summary data for the 1, 057 reporting libraries, by population size group; tables 2 and 3 present selected summary data for these libraries, by State; and tables 4 through 9 provide detailed information for each responding library, arranged alphabetically by State and city.

Population Served (tables 1 and 4)

Only those libraries operating to serve an area of at least 25, 000 inhabitants during the entire fiscal year have been included in this report. Eleven libraries were not counted with the 1, 135 large libraries and were not asked to file a report because they were

---

[2/] Georgia was unable to reconcile the definitions in the Office of Education's 1968 Survey of Public Libraries with the State library agency's method of public library reporting, which does not distinguish between libraries and systems (complexes).

newly established or because they extended their service area to include 25,000 inhabitants by contract arrangements or by mergers with other libraries during the fiscal year.[3] These libraries are:

Flagstaff, Ariz.	Flagstaff-Coconino County Library
Prescott, Ariz.	Prescott-Yavapai County Library
Covington, Ky.	Kenton County Public Library
Jennings, La.	Jefferson Davis Parish Library Demonstration
Cranston, R.I.	Cranston Public Library
Denton, Tex.	Emily Fowler Public Library
Chester, Va.	Chesterfield County Public Library
Rustburg, Va.	Campbell County Public Library
Richmond, Va.	Henrico County Public Library
Olympia, Wash.	Timberland Regional Library
Marinette, Wis.	Marinette County Library

The population figures which appear in the report are those supplied by the State library agencies, and are based upon the 1960 Census.

Libraries Serving a Standard Metropolitan Statistical Area (tables 1 and 4)

Standard Metropolitan Statistical Areas (SMSA's) are areas delineated by the Bureau of the Budget to enable the Federal Government to publish data useful for analyzing metropolitan problems. A metropolitan area is defined as "an integrated economic and social unit with a recognized large population nucleus." Summary data for all libraries identified as having any part of their service area in an SMSA are shown in table 1. Whether or not each library serves an SMSA has been shown in table 4.

Service Outlets (tables 1 and 4)

No space was provided in the questionnaire for reporting the central library as an outlet. The count of "central library and branches" has been produced by adding one (for the central library) to the count reported for branches. It is possible that some libraries included the central library in their report of the number of branches. To the extent that this has occurred, the count of "central library and branches" is overstated.

---

[3] Guidelines are needed to establish the manner in which these libraries should report in a national survey. For example, a newly established library should allot a portion of its expenditures for book stock to "operating expenditures," but the bulk to "capital outlay." Otherwise, operating expenditures for book stock are inflated for the reporting year, and comparison with other years is impossible.

Book Stock and Serials (tables 1, 2, and 5)

For the count of library resources added during the fiscal year and held at the end of the fiscal year, libraries were instructed to report book stock in terms of volumes and serials in terms of bibliographic volumes. (See "Definitions and Instructions," item 11, appendix D.) Examination of the reports, however, indicated that many libraries had reported the number of serial titles or subscriptions rather than bibliographic volumes. Other libraries indicated on the questionnaire that serials had been included with book stock. Those that did not include an indication of this sort but reported no serial resources, may or may not have included serials with book stock. Because of the incomplete reporting of serials and book stock as separate categories, the aggregates reported for the United States and the individual States should be used with caution.

Loan Transactions of Book Stock and Serials and of All Printed and Audiovisual Materials (tables 1, 2, and 5)

Many libraries use photocharging systems, or other systems which do not provide ready access to separate records for loan transactions of volumes of book stock and serials as distinct from loan transactions of other printed and audiovisual materials. Since the reporting of loan transactions of book stock and serials was inadequate for this survey, only total transactions of all printed and audiovisual materials lent during the fiscal year are shown in tables 1, 2, and 5.

Volumes of Book Stock and Serials Received on Temporary Loan through Bulk Loans and Interlibrary Loan (tables 1 and 5)

Many libraries reported the same number of volumes in item 12 (book stock and serials received in bulk loans) of the questionnaire as they reported in item 13 (book stock and serials borrowed on interlibrary loan). It was determined that they were either (1) using the data cell in item 13 for a total of the figures reported in item 12, or (2) confusing bulk loans with interlibrary loan. When the figure in item 13 was the exact sum of entries in item 12, item 13 was deleted. This meant that it was impossible to determine whether the entries should have been reported as bulk loans or interlibrary loan. Therefore, volumes of book stock and serials received on temporary loan (i. e. both in bulk loans and on interlibrary loan) during the fiscal year are published as a combined figure in tables 1 and 5.

Staff Positions (tables 1, 2, and 6)

The survey questionnaire asked for a report of the number of filled and vacant positions on the staff for librarians and professionals other than librarians. Attention was called to the fact that a professional position may be filled by a nonprofessional employee. The definitions given for professional positions proved to be so broad that they allowed for too much uneven interpretation, and the resulting reports were invalid. Twenty-three libraries, for example, reported that they did not have a single professional position on the staff. According to standards, each public library in the survey should have at least two professional positions. On the other hand, the salaries reported by many of the libraries intimated that no professional position had been established in the library budget. Pending the refinement of definitions and instructions, the difficulty has been resolved by publishing statistics for library positions in two categories only. These are "library staff" and "maintenance staff."

Operating Expenditures for Wages and Salaries (tables 1, 3, and 8)

Salaries are reported only for the two categories "library staff" and "maintenance staff" for the same reasons that the numbers of staff positions have been reported for these categories. (See preceding discussion of "Staff Positions.")

Salary of the Director of the Library

The large number of nonresponses to this data item apparently indicates sensitivity to its publication. It was not included in the report. (See appendix D, item 20.)

Fiscal Year (appendix B)

All annual data included in this report cover the libraries' fiscal year that ended during the period January 1, 1968, through December 31, 1968. The variation in type of fiscal year used by public libraries is shown in appendix B.

Blanks in the Data Columns (tables 4 through 9)

A blank in a data column indicates a nonresponse in the item or items included in the column. The responses of "Yes," "No," or numerals, including zero, are printed as reported.

WASHINGTON, D.C. 20202

SURVEY OF PUBLIC LIBRARIES SERVING AREAS WITH AT LEAST 25,000 INHABITANTS – FISCAL YEAR 1968

Sheet 1 of ______ sheets

BUDGET BUREAU NO. 51-R0721
APPROVAL EXPIRES: 12/31/69

NAME OF STATE

This State library agency will cooperate with the Library Surveys Branch of the National Center for Educational Statistics, United States Office of Education in administering the "Survey of Public Libraries Serving Areas with At Least 25,000 Inhabitants, Fiscal Year 1968".

☐ Yes ☐ No

If "YES", Check each of the services you will provide:

- ☐ Distributing survey forms to public libraries serving areas with at least 25,000 inhabitants
- ☐ Editing the reports to assure full responses on individual items and reasonably accurate data
- ☐ Collecting the reports to assure prompt and comprehensive returns
- ☐ Returning the reports to the Library Surveys Branch of the National Center for Educational Statistics

TITLE

DATE

PUBLIC LIBRARY: A library that serves free all residents of a given community, district, or region, and receives its financial support, in whole or in part, from public funds. In addition to the tax-supported municipal, county, and regional public libraries, this definition includes privately controlled libraries, which render, without charge, general library service to a community. The public library is governed by a single board of trustees or authority and is administered by a single director. Examples of public libraries are: (1) the city library with its branches and (2) the county, multi-county, or regional library with outlets functioning as branches.

Please list each public library in your State which currently serves an area with at least 25,000 inhabitants. The population served should be based upon the 1960 census in order to provide uniform national data. Also provide the name of the public library system *(as defined in OE Form 2309-1)* with which the library is affiliated. If the library is not a member of a public library system, enter "None" in Column (4). Attach continuation sheets if necessary.

OFFICIAL NAME OF LIBRARY (1)	CITY, AND ZIP CODE (2)	STREET ADDRESS OR P. O. BOX (3)	NAME OF PUBLIC LIBRARY SYSTEM WITH WHICH AFFILIATED (4)	POPULATION OF AREA SERVED *(1960 census)* (5)

OE FORM 2309, 2/69

APPENDIX D. -- QUESTIONNAIRE: LIBRARY FORM

REPORTING DATE:
Not later than April 30, 1969

SURVEY OF PUBLIC LIBRARIES SERVING AREAS WITH AT LEAST 25,000 INHABITANTS – FISCAL YEAR 1968

Please read "Definitions and Instructions" carefully before filling out any of this form.

1. NAME OF LIBRARY

2. STREET ADDRESS

3. CITY

4. COUNTY

5. STATE

6. ZIP CODE

7. MAILING ADDRESS, IF DIFFERENT FROM ABOVE

8. IS THE LIBRARY A MEMBER OF A PUBLIC LIBRARY SYSTEM? *(See Definitions)*

(1) ☐ YES *(2)* ☐ NO
(If "YES", furnish the name of the system)

9. SERVICE OUTLETS *(Give the number of each type of outlet the library had as of DECEMBER 31, 1968)*		NUMBER
BRANCHES	*(1)*	
DEPOSIT STATIONS *(Excluding classroom collections in schools)*	*(2)*	
BOOKMOBILE STOPS *(Places which receive service periodically)*	*(3)*	
OTHER *(Specify type)*	*(4)*	
TOTAL OUTLETS (Sum of Lines (1) through (4)	*(5)*	

10. POPULATION OF AREA SERVED *(1960 Census)*

11. NUMBER OF VOLUMES OF BOOK STOCK AND SERIALS ADDED DURING THE FISCAL YEAR AND NUMBER OF VOLUMES OF BOOK STOCK AND SERIALS HELD AT THE END OF THE FISCAL YEAR

LOCATION *(1)*	ADDED DURING THE FISCAL YEAR		HELD AT THE END OF THE FISCAL YEAR	
	BOOK STOCK *(Number of volumes)* *(2)*	SERIALS *(Number of bibliographic volumes)* *(3)*	BOOK STOCK *(Number of volumes)* *(4)*	SERIALS *(Number of bibliographic volumes)* *(5)*
TOTAL MATERIALS LOCATED IN THE LIBRARY				

12. NUMBER OF VOLUMES OF BOOK STOCK AND SERIALS RECEIVED IN BULK LOANS DURING THE YEAR

SOURCE		BOOK STOCK AND SERIALS *(Number of volumes)*
STATE LIBRARY AGENCIES	*(1)*	
PUBLIC LIBRARY SYSTEM HEADQUARTERS	*(2)*	
RENTAL COMPANIES	*(3)*	
OTHER TYPES OF SOURCES *(Specify)*	*(4)*	
	(5)	
	(6)	
	(7)	

13. NUMBER OF VOLUMES OF BOOK STOCK AND SERIALS BORROWED ON INTERLIBRARY LOAN DURING THE YEAR

14. NUMBER OF VOLUMES OF BOOK STOCK AND SERIALS LENT DURING THE YEAR

TYPE OF LOAN TRANSACTION		BOOK STOCK AND SERIALS *(Number of volumes)*
CIRCULATED TO PATRONS OF THE LIBRARY	*(1)*	
LENT ON INTERLIBRARY LOAN	*(2)*	
LENT IN BULK LOANS TO ORGANIZATIONS *(Initial loan only)*		
TO ELEMENTARY AND SECONDARY SCHOOLS	*(3)*	
TO COLLEGES AND UNIVERSITIES	*(4)*	
TO OTHER EDUCATIONAL INSTITUTIONS	*(5)*	
TO HOSPITALS	*(6)*	
TO CORRECTIONAL INSTITUTIONS	*(7)*	
TO COMMUNITY ORGANIZATIONS	*(8)*	
TO OTHER ORGANIZATIONS *(Specify type)*	*(9)*	
	(10)	
TOTAL LOAN TRANSACTIONS (Sum of Lines (1) through (10))	*(11)*	

15. TOTAL NUMBER OF LOAN TRANSACTIONS OF ALL PRINTED AND AUDIOVISUAL MATERIALS DURING THE YEAR

OE FORM 2310, 2/69

(Detach "Definitions and Instructions")

16. NUMBER OF FILLED AND VACANT POSITIONS AND NUMBER OF POSITIONS FILLED BY EMPLOYEES HOLDING A FIFTH-YEAR DEGREE IN LIBRARIANSHIP AS OF DECEMBER 31, 1968

TYPE OF POSITION *(a)*		NUMBER OF FILLED POSITIONS			NUMBER OF VACANT POSITIONS *(e)*
		FULL-TIME *(b)*	PART-TIME *(c)*	FULL-TIME EQUIVALENT OF PART-TIME *(d)*

	TITLE	DATE *(Month, Day, Year)*

DEFINITIONS AND INSTRUCTIONS
SURVEY OF PUBLIC LIBRARIES - FY 1968
(OE FORM 2310)

REPORTING YEAR: All annual data are to cover the library's fiscal year that ended during the period January 1, 1968 to December 31, 1968.

NEED FOR ESTIMATES: If exact information is not available for an item, please enter your best estimate for the requested figure and indicate by a footnote that the figure is an estimate. Each item on the form should show (a) an appropriate figure, (b) "0" when the quantity to be reported is nothing or zero, or (c) an appropriate "X" for check boxes. Enter "NA" for items which are not applicable to your library. DO NOT LEAVE ANY ITEM BLANK.

THE DEFINITIONS: The definitions which follow apply to this survey only. Although the guidelines provided by the American Library Association's **Library Statistics: A Handbook of Concepts, Definitions, and Terminology** have been carefully considered, new or revised definitions have at times been developed.

ITEM 1. PUBLIC LIBRARY: A library that serves free all residents of a given community, district, or region, and receives its financial support, in whole or in part, from public funds. In addition to the tax-supported municipal, county, and regional public libraries, this definition includes privately controlled libraries, which render, without charge, general library service to a community. The public library is governed by a single board of trustees or authority and is administered by a single director. Examples of public libraries are: (1) the city library with its branches and (2) the county, multicounty, or regional library with outlets functioning as branches.

ITEM 8. PUBLIC LIBRARY SYSTEM: An organization of two or more public libraries *(as defined above)* which receives special financial support from local, regional, or State appropriations in order to provide more comprehensive library service in the geographical area served by the system. Public libraries contracting with each other for services but receiving no special area development funds do NOT constitute a public library system. A public library system must have a system headquarters which is fiscally separate from the member libraries. The system headquarters administers and accounts for the system funds. Public libraries which affiliate with a public library system, thus becoming system members, maintain separate boards of trustees or authorities and retain their financial and administrative autonomy. In summary, a public library system must meet all of the following criteria:

1. Special financial support from local, regional, or State appropriations
2. Two or more autonomous member libraries
3. A system headquarters which is fiscally separate from the member libraries

ITEM 9. BRANCHES: Branches are auxiliary libraries with separate quarters, a permanent basic collection of books, a permanent staff, and a regular schedule, but administered from a central unit.

DEPOSIT STATIONS: Deposit stations are public library agencies in stores, schools, factories, clubs, or other organizations, with a small and frequently changed collections of books, and open at certain designated times. Do NOT report classroom collections in schools as deposit stations.

BOOKMOBILE STOPS: Report the NUMBER OF PLACES at which bookmobiles stop periodically to provide library service. Do NOT report the number of stops per week or per month.

ITEM 11. TOTAL MATERIALS LOCATED IN THE LIBRARY: Report all materials owned by the library and all materials which have been placed on PERMANENT deposit in the library. Do NOT report rotating collections and other temporary bulk loans received during the year. *(See instructions for "Bulk loans received" in Question 12.)*

MICROFORM: Microform should be reported within the count of the various types of materials. For example, books on microform should be reported as book stock; periodicals on microform should be reported as serials.

BOOK STOCK: Book stock is a library's collection of books or of other materials which are prepared and recorded in the same manner as books and shelved with books. Do NOT report other printed materials *(i.e., serials, pamphlets, documents, sheet music, etc.)* which have not been treated in such a manner as to meet ALL of the above criteria for book stock.

BOOK STOCK - VOLUMES: Report by the physical item.

SERIALS: A serial is a publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals, *(reports, yearbooks, etc.)*, memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

SERIALS (bibliographic volumes): A bibliographic volume is the unit established by the publisher as a volume.

ITEM 12. BULK LOANS: Report rotating collections and other temporary loans received from State library agencies, public library system headquarters, rental companies, and other sources to supplement the library's permanent collections. These materials are NOT borrowed to fill specific title, author, or subject requests. *(See also instructions for "Interlibrary loan" in Item 13.)*

BOOK STOCK AND SERIALS (volumes): Report by the physical unit. *(See definitions for "Book stock" and "Serials" in Item 11.)*

ITEM 13. BORROWED ON INTERLIBRARY LOAN: Report the number of volumes of book stock and serials borrowed from other libraries to fill specific title, author, or subject requests. Photocopy borrowed in lieu of the physical volume should be counted as the physical volume itself would be counted *(i.e., photocopy of a six-page article in a periodical counts as one serial volume).*

BOOK STOCK AND SERIALS (volumes): Report by the physical unit. *(See definitions for "Book stock" and "Serials" in Item 11.)*

ITEM 14. TYPE OF LOAN TRANSACTION: If exact statistical data are not available, please estimate the number of loans for each type of transaction and indicate by a footnote that the figures given are estimates. The total number of loan transactions reported should contain all of the types of loan transactions specified in this item and only these types. Report the loan of all materials available to the library, including collections which the library owns, collections on permanent and/or temporary deposit in the library, and materials borrowed on interlibrary loan. Do NOT report loan transactions of any type which were made to branches of the library.

PATRONS OF THE LIBRARY: Patrons of the library are the individuals using the library, including the general public, nonresident borrowers and staff members.

LENT ON INTERLIBRARY LOAN: Report the volumes of book stock and serials lent to other libraries in response to specific title, author, or subject requests. Photocopy lent in lieu of the physical volume should be counted as the physical volume itself would be counted *(i.e., photocopy of a six-page article in a periodical counts as one serial volume).*

LENT IN BULK LOANS TO ORGANIZATIONS: Report the loan of rotating collections and other TEMPORARY loans of book stock and serials at the time they were sent to organizations for circulation by the organizations *(initial loan).* DO NOT REPORT THE ACTUAL OR THE EXPECTED CIRCULATION WITHIN THE ORGANIZATIONS. Thus, six collections of fifty books each, sent to a hospital during the year, will be reported as 300 volumes lent to hospitals.

BOOK STOCK AND SERIALS (volumes): Report by the physical unit. *(See definitions for "Book stock" and "Serials" in Item 11.)*

ITEM 15. TOTAL LOAN TRANSACTIONS OF ALL PRINTED AND AUDIOVISUAL MATERIALS: Report the loan of all materials including book stock, serials, other printed materials, and audiovisual materials.

ITEM 16. NUMBER OF FILLED AND VACANT POSITIONS AND NUMBER OF POSITIONS FILLED BY EMPLOYEES HOLDING A FIFTH-YEAR DEGREE IN LIBRARIANSHIP: If a public library system assigns a system employee to work on a REGULAR SCHEDULE in your library, report this position, as well as those positions established in your library's operating budget. A reference librarian employed by the system and assigned to work in the reference department of your library three days a week is an example of this type of shared personnel.

PROFESSIONAL POSITIONS - LIBRARIANS: Report those positions in the library which require training and skill in theoretical or scientific parts of the library's work, as distinct from its merely mechanical aspects. Specific examples of professional-librarian positions are: Junior Librarian, Senior Librarian, Assistant Department Head, Department Head, Assistant Director, and Library Director.

PROFESSIONAL POSITIONS – OTHER THAN LIBRARIANS: Report those filled and vacant positions in the library which require at least a bachelor's degree *(or its equivalent)* in a subject field other than librarianship. Positions requiring specialized training in law, electronic data processing, personnel management, and public relations are examples of other professional positions.

NOTE: Due to staffing difficulties, professional positions are sometimes filled by employees lacking professional qualifications. Therefore, it is possible for the number of filled professional-librarian positions to exceed the number of positions filled by employees holding a fifth-year degree in librarianship.

PART-TIME POSITIONS: Report all part-time personnel, including student assistants and pages. Do NOT report volunteer personnel.

FULL-TIME EQUIVALENT OF PART-TIME PERSONNEL: To compute ''full-time equivalents'' *(FTE)* of part-time personnel, add the total number of hours worked per week by all part-time personnel, and divide by the number of hours in your full-time work week.

EXAMPLE: Non professional library staff positions

4 clerks each worked 20 hours per week . . . . . . 80 hours
2 student assistants ea. worked 10 hrs. per wk. . 20 hours
6 employees worked a total of . . . . 100 hours

One hundred hours divided by 40 hours *(or the number of hours in your full-time work week)* equals 2.5 full-time equivalents.

ITEM 17. OPERATING RECEIPTS: Do not include under operating receipts: (1) receipts for capital outlay *(i.e., for vehicles, building sites, new buildings and additions to existing buildings, major structural changes, architect's fees, building permits, furnishings and equipment for new or expanded quarters, and additional furnishings and equipment for existing buildings);* (2) the value of any contributed services; or (3) the value of gifts of materials or equipment from any source.

NOTE: Many State library agencies and public library systems administer CASH GRANTS to public libraries from local, State, and Federal sources. Public libraries receiving these cash grants should report them by the ORIGINAL source of the funds (i.e., local, State, or Federal government). If your library received cash grants from a State library agency and/or from a public library system but does not know the source of these funds, please try to determine the original source.

LOCAL GOVERNMENT(S) RECEIPTS: Report all tax moneys and contract moneys received directly from municipality, county, and regional taxing units, as well as from other special local taxing units, such as, school districts and library districts. Report also those cash grants, received from a State library agency or public library system, which came originally from local government sources.

STATE GOVERNMENT: Report all moneys received from State appropriations, including moneys received directly from the State and those cash grants, received from a State library agency or public library system, which came originally from State government sources.

FEDERAL GOVERNMENT: Report all moneys received from Federal appropriations, including those cash grants, received from a State library agency or public library system, which came originally from Federal government sources.

FOR SERVICES TO OTHER LIBRARIES: Report all moneys received from another library or library system in payment for services rendered.

ITEM 18. OPERATING EXPENDITURES: Report operating expenditures from all sources, including Federal funds.

MICROFORM: Expenditures for microform should be reported within the expenditures for the various types of materials *(e.g., the expenditures for books on microform should be reported as expenditures for book stock; expenditures for periodicals on microform should be reported as expenditures for serials).*

RENTAL FEES FOR LIBRARY MATERIALS: Expenditures for rental materials used to supplement the library's holdings should be reported within the expenditures for the various types of materials *(e.g., the expenditures for rental books should be reported as expenditures for book stock; expenditures for rental films should be reported as expenditures for films).*

WAGES AND SALARIES: Report the wages and salaries paid to library employees. Do NOT report fees paid to outside consultants hired in connection with the library program and/or special projects. Outside consultant fees are to be reported under ''All other operating expenditures'' *(see instructions below).*

PROFESSIONAL: For a definition of professional positions, see Item 16.

BOOK STOCK: For a definition of book stock, see Item 11.

SERIALS: For a definition of serials, see Item 11.

OTHER PRINTED MATERIALS: Report expenditures for such *nonbook materials* as pamphlets, documents, sheet music, catalogs, maps, and pictures *(framed and unframed).* These materials do NOT require the use of special equipment in order to be seen.

OTHER AUDIOVISUAL MATERIALS: These are materials which, like films and sound recordings, require the use of special equipment in order to be seen or heard. Thus, expenditures for filmstrips and slides are reported as expenditures for other audiovisual materials. DO NOT REPORT MICROFORM as other audiovisual materials. *(See instruction above.)*

FOR SERVICES FROM OTHER LIBRARIES: Report all moneys paid to another library or library system as payment for services rendered by that library or system.

ALL OTHER OPERATING EXPENDITURES: Report all expenditures for the operation of the library other than those already enumerated. These include expenditures for maintenance of the plant, rent, interest on loans, travel, dues, insurance, supplies, rental of equipment, and fees paid to outside consultants hired in connection with the library program and/or special projects. Do NOT report moneys spent for investments, the repayment of the principal on loans, or moneys transferred to other funds or returned to government sources.

ITEM 19. SOURCE OF MONEYS SPENT FOR CAPITAL OUTLAY: Report the source and amount of all moneys spent during the fiscal year for vehicles, building sites, new buildings and additions to existing buildings, major structural changes, architect's fees, building permits, furnishings and equipment for new or expanded quarters, and additional furnishings and equipment for existing buildings.

ITEM 20. ANNUAL BUDGETED SALARY OF THE DIRECTOR OF THE LIBRARY FOR THE CURRENT FISCAL YEAR: Please give the annual salary before deductions which is budgeted for your 1969 fiscal year. Do NOT include the salary range.

☆ U.S. GOVERNMENT PRINTING OFFICE : 1970 O - 389-051
